Dean's list, STEAM Scholar, French Honors Society

RELEVANT COURESEWORK

Single Variable Calculus • Physics: Mechanics and Heat • Introduction to Python • Advanced French • Introduction to Macro.
Economics • C++ Programming •

EXPERIENCE

- Repurpose—Intern, Los Angeles, CA** *June 2019-August 2019*
In charge of the Los Angeles warehouse where I ensured the on time delivery of investor samples, prototypes, and expo popups. Helped sales team prepare for multi-million dollar sales proposals using research and product acquisition. Used Excel to assign industrial composters to different zipcodes to help consumers find out the best and shortest route to compost our product. Combed through data and used Excel to create an interactive projection of the environmental impact Repurpose has made.
- Boeing—Summer Intern, El Segundo, CA** *June 2017-August 2017*
Spent two months working for the Business Development department of the Satellite Division of Boeing. Was tasked with researching many different forms of propulsion for small to micro sats and doing a cost/performance analysis on each one. Attended many meetings and information sessions on all the different aspects of creating a satellite to keeping it running in space. Learned from lead propulsion engineers about ion propulsion and its use in the satellite industry. Made a mock proposition for a satellite refueling spacecraft that included price, efficiency, and feasibility predictions.
- MacEnthusiasts—Summer Employee, Los Angeles, CA** *June 2016-August 2016*
Organized the inventory of the shop and improved the efficiency of the system that was used to locate the parts needed for each job. Prepared dozens of two different generations of laptops for sale, making sure that both the hardware and the software of each computer was customer ready. Identified problems on stored computers for more efficient fixes to be made.

ADDITIONAL EXPERIENCE

- Cornell University Program Board—Administrative Chair, Ithaca, NY** *April 2019-Present*
Managed the financials of the club and transferred funds to the correct recipients. In charge of the box office for each show and managing the selling of the tickets. Kept track of current members and records all important information at each meeting. Responded to customer complaints and in charge of the relations for the club.
- Bird—Charger, Los Angeles, CA** *May 2018-January 2019*
Collected Bird scooters on a daily basis and used time management skills to make sure they were all charged and ready for the next morning. Woke up every morning at 4 a.m. to release the scooters and communicated with Bird whenever I found damaged scooters.
